

ASSOCIATE PHYSICIAN – ANESTHESIOLOGY & PAIN MEDICINE

Join the UC San Diego Department of Anesthesiology

The University of California San Diego (UC San Diego) Department of Anesthesiology is seeking outstanding anesthesiologists committed to delivering exceptional clinical care to join our growing team.

At UC San Diego, we are proud to serve a diverse patient population through top-tier, patient-centered care. Our department offers multiple practice pathways designed to align individual career goals with the evolving needs of our patients and health system.

Position Highlights

- Mix of direct patient care and supervision of Anesthesia Residents and Certified Registered Nurse Anesthetists (CRNAs)
- Opportunities to practice across a broad range of clinical settings
- Exposure to complex and diverse cases within a leading academic health system
- Potential pathway toward future faculty appointment for interested candidates

Practice Locations

Successful candidates will join UC San Diego Health and may practice at a variety of locations, including:

- Jacobs Medical Center
- UC San Diego Medical Center – Hillcrest
- East Campus Medical Center
- Shiley Eye Institute
- Koman Outpatient Pavilion
- McGrath Outpatient Pavilion

Clinical responsibilities span operating room and non-operating room anesthesia locations, including:

- Endoscopy Suites
- Pulmonary Procedure Areas
- Electrophysiology Laboratories
- Interventional Radiology Suites

Candidates with expertise in subspecialty anesthesiology services are encouraged to apply.

Required Qualifications

Applicants must meet the following qualifications by the time of hire:

✓ MD, DO, or equivalent degree

✓ Board eligible or board certified in Anesthesiology

✓ Valid California Medical License or equivalent Special Permit issued by the California Medical Board (or Special Permit application submitted)

Compensation & Benefits

Salary is negotiated annually. For clinicians, total compensation including incentives is in the range of \$500,000-\$700,000, dependent on productivity. There is also a comprehensive and substantial benefits package: (<https://ucnet.universityofcalifornia.edu/benefits/>).

Notable opportunities for individualized professional development and potential academic advancement also exist.

Interested in joining a collaborative team dedicated to advancing patient care, education, and innovation in anesthesiology?
